

Andrea Di Francia - Full CV Placeholder

Temporary recruiter asset

This PDF is a deliberate placeholder stored at `downloads/ds_cv.pdf` so the recruiter landing page never ships with a dead link.

Replace this file with the real full CV before publishing the page or sharing the link externally.

Before publishing	What to do
1	Export the final multi-page CV to <code>downloads/ds_cv.pdf</code>
2	Keep the filename unchanged so <code>hire-me.qmd</code> continues to work
3	Confirm the rendered page still labels the card correctly if needed

Generated automatically for issue #4 / `todo implement-hire-me-page`.
